AIR GERMICIDAL PURIFIERS

FOR RESIDENTIAL AND PUBLIC PREMISES

Viruses and bacteria are constantly spreading in public places. It is an ideal habitat for different viruses and bacteria.

UV air purifiers are recommended for use in all public places for regular air disinfection.

**REMO**  
ELECTRONICS

UV Air Purifiers SOLAR BREEZE are intended for air disinfection in residential buildings and public places. Air is being disinfected by recirculation through UV light emanating from a lamp inside the device. This light kills up to 99,9% of all known viruses and bacteria

**KILL UP TO 99.9% OF ALL KNOWN VIRUSES AND BACTERIA\***

\* ACCORDING TO THE RESULTS OF AN INDEPENDENT STUDY

## The UV purifier is designed for use in presence of people, including kids, and animals.

SOLAR BREEZE are closed-type devices suitable for use at any time of the day or night in presence of people, pets and houseplants. There are special ozone-free UV lamps inside our Air Purifiers. The devices are made of metal, which protects consumers from UV lights. The metal body is UV resistant (unlike plastic boxes) and blocks harmful irradiation inside.

Minimalistic design and different mount options allow the device to fit both in the office and home interior.

**REMO**  
ELECTRONICS

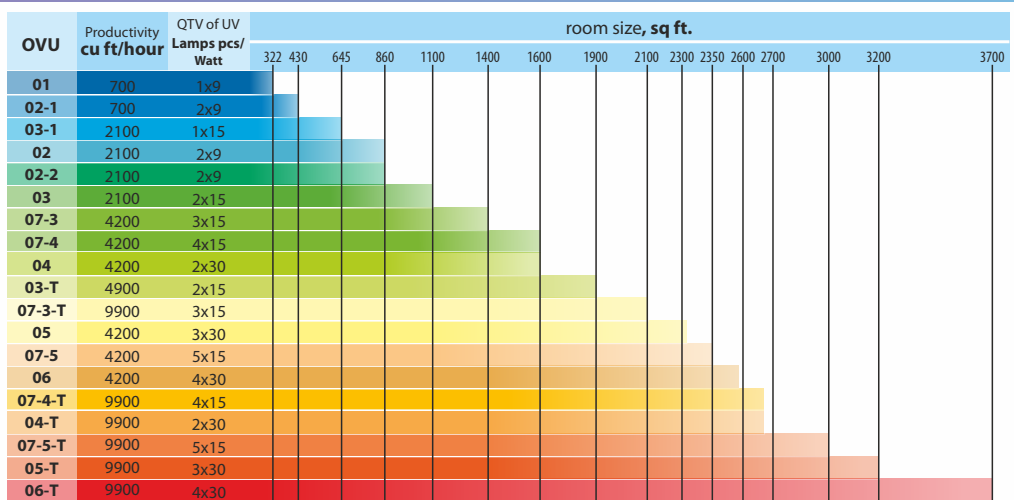

Our Air Purifiers have a low noise level, that is why the devices are great for use, for example, in a bedroom, in a classroom or in an office.
