

НАРУЖНАЯ ЦИФРОВАЯ ТЕЛЕВИЗИОННАЯ АНТЕННА
OUTDOOR TV ANTENNA DVB-T2

X - ELEMENT ANTENNA

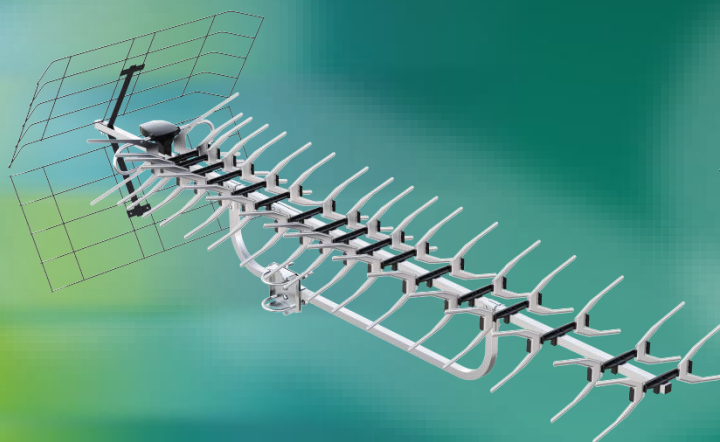

Straight-out gain
Unlimited TV reception

«BAS X» – line of powerful aluminum antennas. X-shaped antennas provide unique reception

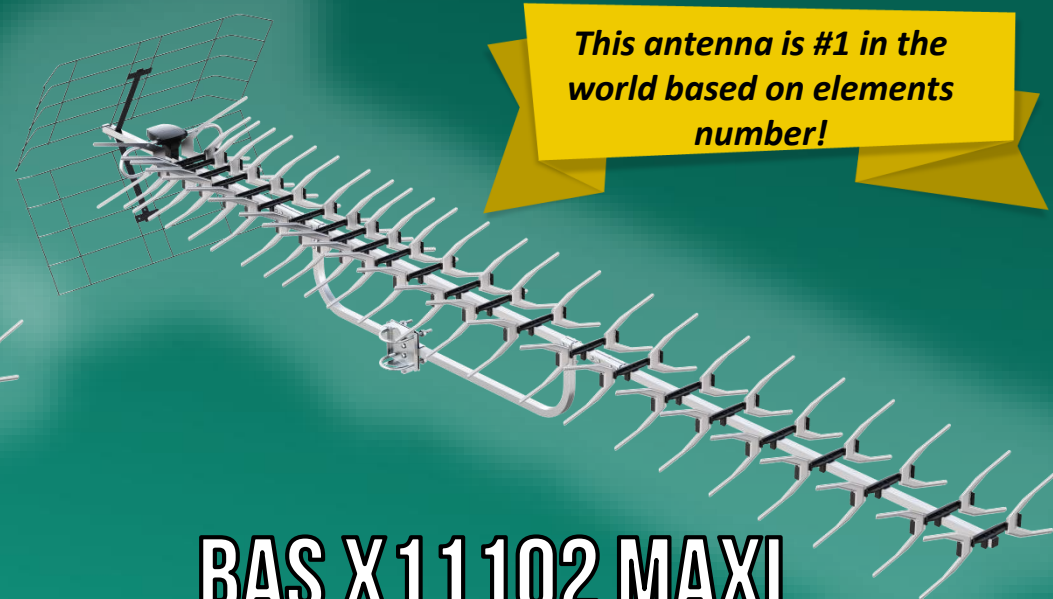

BAS X1142 SHORT

42 elements – The most effective solution for city and suburbs.

BAS X1174 MIDI

74 elements – Excellent result for countryside. Ideal for summer home and family house .

This antenna is #1 in the world based on elements number!

BAS X11102 MAXI

102 elements – The biggest antenna in its class. Super result!

BAS X antennas are ideal both for city, and countryside home

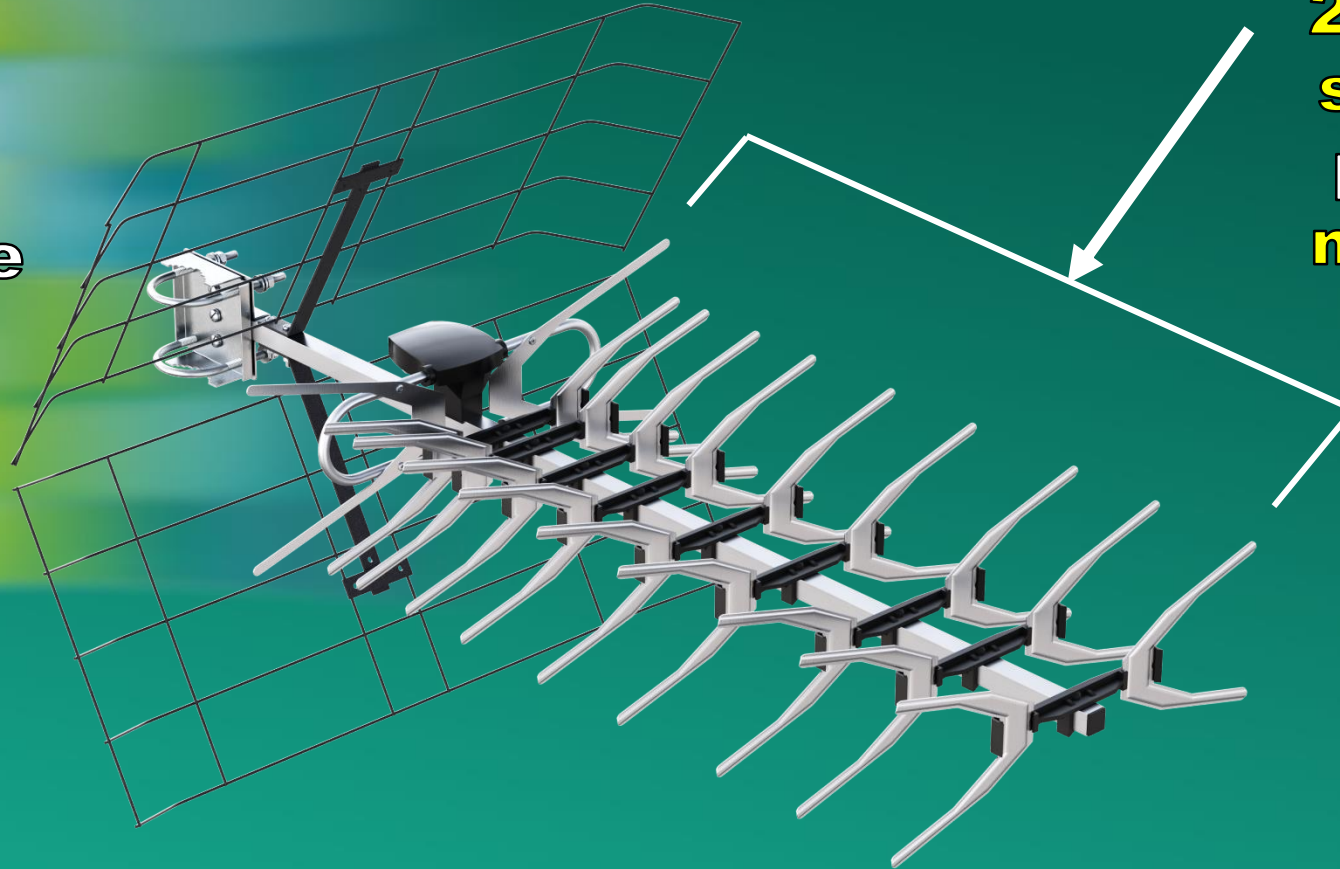

BAS X1174 MIDI AND BAS X11102 MAXI may be used in professional antenna systems for community reception beyond the city

Why absolutely **BAS X** ?

1. One X-shaped element is equal to 4 classic elements

3. **ANTI-GSM** and **ANTI-LTE** filters eliminate interference generated by mobile base stations

2. Special structure provides maximum gain

4. **Integrated amplifier** compensates for any possible cable losses

Why absolutely **BAS X** ?

1. Antennas fit for **the most difficult reception conditions:** cottages, countryside, remote industrial and n touristic locations.
2. **Heavy-duty rigid structure** is adopted for “Russian winter”, advanced strength against birds.
3. **Wide range of design options.**
4. **Universal amplifier:** amy be powered both from USB, and mains power supply.

Why **BAS X** are better than its analogues?

1. The biggest number of elements, the biggest boom length, and therefore the best gain compared to other analogues, - not only Russian, but famous international brands.
2. They are the most effective premium-class antennas.

4. The best quality-price ratio in its class.
5. In contrast to analogues, these antennas are **COMPLETELY** made in **Russia** and fabricated from Russian aluminum materials.
6. Integrated **ANTI-GSM** and **ANTI-LTE** filters have unique schematics and high interference rejection factor.

Optimized for Digital Television

Where do you find **everything you need** for installation?
